

July 2018

IT'S SUMMER TIME!

Dispose of Fireworks Properly

It's that time of the year again where we gather at the beach, grill up some good eats, and light up some fireworks to celebrate the United State's Independence. When you light up those fireworks, always remember to be cautious and safe. You should also be cautious and safe when you dispose of them.

Here are the steps you should take to properly dispose of your fireworks.

- Soak Used fireworks in water for 15 - 20 minutes after use.
- Do not place used fireworks in your recycling bin.
- All fireworks and related materials should be thrown out in your trash.
- It is recommended to keep all used fireworks in a closed fireproof container before disposal.

The World is Saying No to Plastic

Another country has followed suit on banning plastic! The capital of India, Delhi, has recently introduced a ban on disposable plastics. More and more places are banning

Upcoming Events
