

June 2018

Happy World

ENVIRONMENTAL DAY!

Tour Our Facilities

Tours of the landfill and transfer stations/recycling centers are available for **free** to all schools, community groups, and the public in the Salinas Valley area. Tours last approximately 1 hour and offer participants an opportunity to visit the recycling centers, understand how garbage is buried at the landfill, learn how yard waste is processed and what it turns into, what happens to construction and demolition materials, see the landfill gas to energy facility (landfill tour only), and visit the ABOP collection stations or the hazardous waste collection facility. Safety vests and hard hats will be provided for all guests. Tours are available Monday - Friday 8am - 3pm and Saturday by requests. Schedule your tour with us today! All you need to do is fill out this [tour application](#) and send it to Estelag@svswa.org

World Environmental Day

It is June 5th and today is World Environmental Day! It is a day to be more aware of what impact we make on the world and reduce our waste. This year everyone is trying to beat plastic pollution because plastic can have a devastating effect on our environment. Every year up to 13 million tonnes of plastic leak into our ocean. Plastic can survive in the environment for up to 500 years! Recently there was a pilot whale who died from swallowing 17 pounds of plastic waste. You can read the article on [The Guardian website](#). By reducing our use of plastic we can all make a difference and #BeatPlasticPollution. If you would like to see more information about plastic pollution and see how others are beating plastic pollution head over to the [World Environment Day website](#).
