What Goes Where?

The What Goes Where? App is Live!

Salinas Valley Recycles has teamed up with Monterey Regional Waste Management and your local garbage and recycling haulers to bring you a free app that helps you recycle right. The What Goes Where? app answers that question, "is this trash or can I recycle this?"

Get the Mobile App at your
iOS or Android Store

It's simple to use: provide your zip code so it knows who your hauler is, and then enter the item you have questions about. It provides all the information you need so it takes away the guessing game. Speaking of games, you can also play the Recycling Challenge game and test your knowledge on what to do with bulky or hard to recycle items.

Download What Goes Where? app here: [the Android app store](#) or [the Apple app store](#).

National Reuse Day

October 20th is National Reuse Day. It is a day where people spread awareness on reusing old items. Reusing unused or unwanted items not only helps you save money but it also saves the environment. Reusing does not necessarily mean buying from a Goodwill store, thrift shop or garage sale. You can reuse items in your household that you're thinking of throwing away and turn it into something useful. Here is a [DIY site](#) that shows how you can reuse certain items. Show off your DIY-reused items on national reuse day and use the hashtags #Reuse #NationalReuseDay.

Upcoming Events

Composting Workshop
