4. Future Organics Program infrastructure and Equipment Needs
(4:09) Asst. General Manger/Operations Manager Zuñiga provided a brief history on the Organics program and current status of the expansion with the grant received. Mr. Zuñiga explained the foreseen challenges to meet the new state mandates requiring higher levels of diversion of organic waste from the landfills and other drivers that are requiring a bigger expansion of the organics program. He indicated that with the uncertainty of the decision of the City of Salinas the withdraw from the Joint Powers Agreement a full build out is not appropriate at this time. However, a small investment for a covered AgWaste receiving area, a medium size loader, and an elevated pick station would allow the program to move forward while keeping the cost down. Mr. Zuñiga detailed what the full build out of the program would look like, what it would require, and what it would accomplish.
General Manager/CAO Mathews explained the financial effects of both the elimination of waste to the landfill and the potential success of the program. He reviewed the material flow chart that demonstrated the multiple potential options for the processed material.

Public Comment: None
Committee Discussion: The Committee discussed the presentation commenting on the importance of obtaining a resolution from the City of Salinas.
Committee Action: Alternate Vice President Lopez made a motion to forward this item to the Board for discussion. Vice President De La Rosa seconded the motion. The motion passed; 3-0
