

Free Services to Help Ag Businesses Comply with Recycling Laws

Recycling laws and changing rules can make it challenging to integrate compliant practices while keeping up with your normal business priorities. Don't despair, we are here to make it easy for you to comply and possibly save money!

SB 1383

Short-Lived Climate Pollutants Law - Requires all businesses to recover edible food waste and divert organic materials from the landfill.

AB 341

Mandatory Commercial Recycling Law - Requires all businesses generating 4-cubic yards of trash per week to establish recycling programs.

AB 1826

Mandatory Commercial Organics Recycling Law - Requires all businesses generating 4-cubic yards of trash per week to establish recycling and organics waste diversion programs.

Free Services Offered by Salinas Valley Recycles
