SALINAS VALLEY RECYCLES SERVICE AREA

 SVSWA Service Area

 Facility Location

 Household Hazardous Waste (HHW) Collection Facility

 **ABOP** Drop-Off Station for Antifreeze, Car Batteries, Used Motor Oil and Latex Paint

Our landfill is shared with over 270,000 people residing in these cities & unincorporated areas of the county

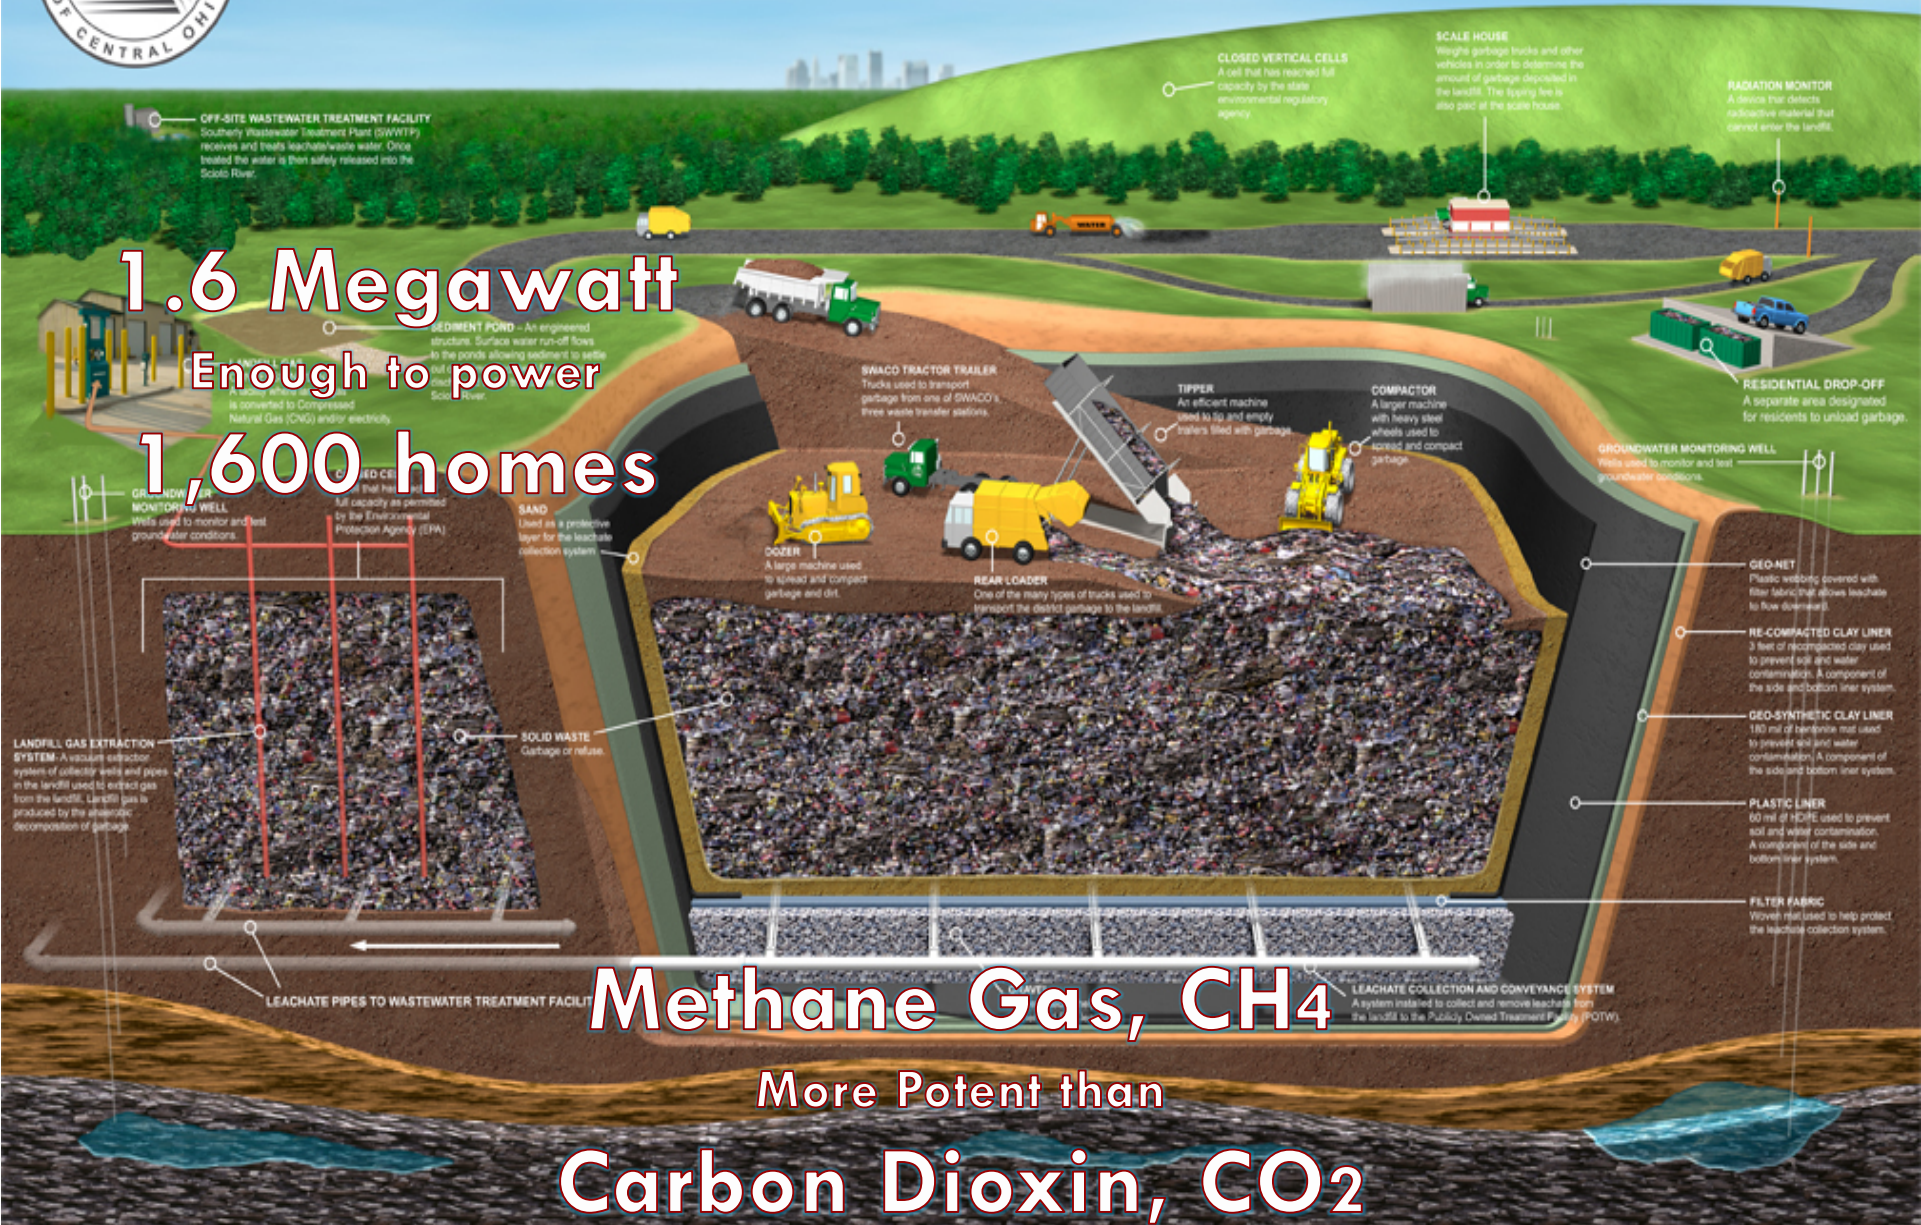

A yellow bulldozer is shown in the middle ground, pushing a large pile of trash. The landfill is covered in a sea of white birds, likely gulls, which are also seen flying in the sky. In the background, there are blue mountains under a cloudy sky. The overall scene depicts a large-scale waste management operation in a natural, somewhat desolate environment.

WHERE DOES OUR
GARBAGE GO?
*TO JOHNSON CANYON LANDFILL
IN GONZALES*

In 2019, 226,386 tons or **452 Million lbs.** of garbage was buried in JCL.
Roughly 5 pounds of garbage per person per day!

MODERN LANDFILL

1.6 Megawatt
Enough to power
1,600 homes

Methane Gas, CH₄
More Potent than
Carbon Dioxin, CO₂
