

# LOOKING FOR A RESEARCH PROJECT?

Salinas Valley Recycles has resources  
for you!

Lets work together to meet new state mandates,  
give students hand on experience and learn how  
compost can reduce climate emissions in the  
process!

# LOOKING FOR A PARTNER IN RESEARCH?

Let us help!

## Resources Available:

- 450 Acres of Grazeland in King City
- Area Available for a Test Garden in Gonzales
- Compost and Mulch
- Potential tests sites in North Monterey County

## Applicable Research Fields:

- Carbon Sequestration
- Agricultural Application of Compost
- Soil Water Holding Capacity
- Surface Water Quality Improvement
- Biological Diversity
