Report to the Executive Committee

Date: August 3, 2017

From: Patrick Mathews, General Manager/CAO

Title: A Resolution Approving the Revised Personnel

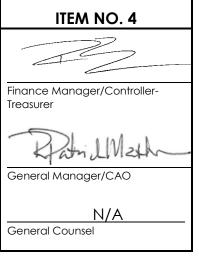

Allocation, Salary Schedule, and the New and

Revised Job Descriptions, Reflecting the

Reorganization of the Administration Department,

Resource Recovery Department, and

Management Staffing Effective August 28, 2017

RECOMMENDATION

Staff encourages the Executive Committee to recommend Board approval of the adoption of the Resolution approving the Reorganization Implementation Plan for Resource Recovery, Human Resources and Management staffing, with related labor cost savings.

STRATEGIC PLAN RELATIONSHIP

The recommended action helps support the Authority's Goals to Maintain a High Performance and Flexible Workforce and Promote the Value of Salinas Valley Recycles Services and Programs to the Community. At its July 24th retreat, the Board developed a specific 6-month objective under the High Performance and Flexible Workforce goal to: "Present to the Board for consideration changes to the Personnel Organizational Structure to achieve savings and provide for additional regulatory mandates and programmatic service needs". This action will also reduce overall agency costs and assist in increasing and improving waste recovery activities in our commercial sector.

FISCAL IMPACT

The proposed Reorganization Plan would create an estimated \$56,000 savings in Fiscal Year 2017-18 budget and not increase total SVR staffing levels.

| Eliminate HR Manager | \$(197,760) |
|--|-------------|
| Eliminate HR Generalist | \$(123,552) |
| Add HR Supervisor (Step 2) | \$136,051 |
| Increase Outside Labor Law Contract Assistance | \$17,000 |
| Add Resource Recovery Technician I/II (Step 3) | \$112,264 |
| FY 2017-18 Estimated Savings: | \$55,997 |

DISCUSSION & ANALYSIS

With the departure of our Human Resources/Organizational Development (HR/OD) Manager, the management team has taken this event as an opportunity to reassess options for reorganization, cost savings and staff resource improvements. After careful

thought and three months of operating under an interim structure without an HR manager, staff is recommending the following permanent organizational changes:

- 1. Eliminate the HR/OD Manager position. The original HR/OD Management structure can always be re-established in the future if it becomes warranted.
- 2. Eliminate the HR Generalist position and reclassify this position to HR Supervisor. The new job description for this proposed position is included as Attachment No. 4c. This is recommended due to the added responsibilities placed on this position to absorb many of the HR/OD Manager's duties. This position would be placed in the Supervisors Salary Schedule benchmark (Attachment No. 3).
- 3. Modify the Finance Manager's job description (Attachment No. 4a) to Finance and Administration Manager with duty modifications. This is recommended due to this position absorbing the supervision of the front office Administrative Assistant I/II staff and the proposed HR Supervisor, who also processes payroll in addition HR/OD duties. This position will also be designated as the Risk Manager (previously under the HR/OD Manager) for processing and oversight of insurance and risk management programs.
- 4. Modify the Operations Manager job description (Attachment No. 4b) to be designated as Safety Officer (previously under the HR/OD Manager). This is a natural assignment decision as this position oversees the higher risk areas of our operations at the public facilities where safety is the highest priority.
- 5. Clerk of the Board will move under the supervision of the General Manager/CAO. Again, as the CAO is officially designated as the Clerk of the Board under Authority Code, this is a natural change in organizational structure.
- 6. Increase our retention with Liebert, Cassidy and Whitmore from \$3,000 to \$20,000 per year to accommodate any future significant personnel matters that may require a labor professional or legal assistance.
- 7. New Resource Recovery Technician I/II Position: An additional Resource Recovery staff position is needed to implement new AB 939 related programs and regulations necessary to achieve the following waste reduction and recycling state mandates and SVR's Strategic Plan Objective for the 3-yr Goal to "Select and Implement Facilities and Programs that Lead to Achievement of at Least 75% Waste Diversion".

The existing waste reduction and recycling laws, mandates and policies in CA include:

- AB 939 requires 50% diversion of waste (now represented in pounds per person per day instead of a percentage),
- AB 341 mandatory commercial recycling for businesses and multifamily complexes and established a broader paradigm shift in setting a 75% statewide diversion goal, and
- AB 1826 requires businesses, including multifamily complexes, schools, etc., to divert organic waste and requires local jurisdictions to implement organic waste recycling programs to divert this waste away from landfills.

Both AB 341 and AB 1826 pertain to businesses and in conjunction with AB 939, require jurisdictions to provide outreach and education, and monitoring and progress reporting on an annual basis. More recently two new laws were passed that specifically address organic waste:

- AB 876 addresses organics infrastructure planning by requiring counties and regional agencies to estimate the amount of organic waste in their areas over a 15-year period and an estimate of how much additional facility capacity will be needed to process that material, and to identify locations for new or expanded facilities.

- SB 1383, Short-Lived Climate Pollutants (SLCP) and Methane Emissions, requires the reduction of organic waste disposal below 2014 levels by: 50% by 2020; 75% by 2025 as well as diverting 20% of edible food from the landfill for human consumption by 2025. SB 1383 is the most ambitious disposal reduction mandate since the passage of AB 939 and achieving these levels of diversion would effectively eliminate the disposal of organic materials in landfills in California.

With the added focus on organics reduction and organics recycling program implementation, an additional Resource Recovery staff is needed to assist in meeting these new, unfunded State mandates. SVR will need to annually identify and track this information and document it in the Regional Agency's Electronic Annual Report to CalRecycle including, reporting the number of businesses & multifamily facilities that fall under the thresholds (by regulation, the thresholds change over time through 2020-21), the number that are not recycling organics, tonnage reporting, program implementation & monitoring, and outreach & education activities related to the laws. The additional staff will provide the on-going regulatory tracking, public outreach and education for these innovative programs for residents, businesses, multifamily complexes, schools, etc., and establish and create the necessary behavioral change (which take place over time with repeated exposure) to help ensure program success.

As SVR services approximately 60% of the county population, is the future population growth area, and has a service area of 2,400 square miles, the addition of a third Resource Recovery Technician I/II is critical for meeting our broad responsibilities for programmatic, outreach and education obligations and mandates well into the future. A list of the revised Resource Recovery staff assignments (including the proposed new position) to meet existing and new mandates and programmatic needs is included as Attachment No. 5.

BACKGROUND

At the June 1, 2017, Executive Committee meeting, staff outlined the interim and a potentially permanent staffing reorganization plan to address the departure of our Human Resources Manager in May 2017. After considering the options outlined by staff, the Executive Committee expressed support and directed staff to prepare the implementing actions for final review of the Executive Committee at its August 3rd meeting.
