

BOARD OF DIRECTORS

MEETING HIGHLIGHTS

June 16, 2022

ORGANICS TECHNOLOGY FEASIBILITY STUDY

The results of the Feasibility study compiled by SCS Engineers to assist Authority staff in the consideration of various options to process organic wastes (including biosolids) that are not currently composted were presented to the Board. SCS staff contacted vendors to obtain references and other information on aspects of their technology, including technical and financial information. The four types of technologies studied were Pre-processing, Wet Anaerobic Digestion (AD), High Solids AD, and Autoclave. The list of vendors contacted included seven pre-processing companies, seven high solids AD companies, seven wet AD companies, and three autoclave companies.

EDIBLE FOOD RECOVERY GRANT FUNDING AWARDS

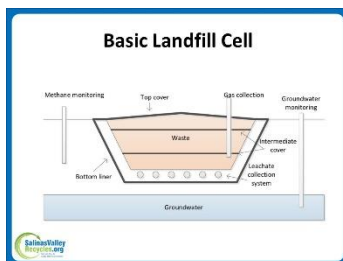

The first five recipients of the new pilot grant awards were announced. The pilot grant program was developed by the Edible Food Recovery (EFR) Technical Advisory Committee (TAC), a subcommittee of the larger SB 1383 TAC. The EFR TAC was created the grant program to begin increasing the local capacity for food recovery organizations to be able to accept, collect, store and distribute more food. A total of 13 applications were received totaling over \$202,000 in requested funding. The top five highest scored applications awarded are local feeding organizations throughout Monterey County and each will receive \$20,000. Congratulations to the following organizations and thank you for making a difference in the community:

- ❖ **PV Loaves & Fishes**, serving the North Monterey County area
- ❖ **Dorothy's Place**, which serving the Salinas area
- ❖ **Meals On Wheels of Salinas Valley**, serving the entire Salinas Valley
- ❖ **Victory Mission**, serving Salinas and Peninsula Cities
- ❖ **Shoreline Church**, serving all of Monterey County and its cities

LANDFILL 101 INFORMATION

As requested by the Board, a presentation was given explaining the overall landfill design and environmental control systems, day to day operations, state and local regulatory compliance, diversion programs, organics processing, and financial aspects.
